YAKKUM Craft

High Quality Educational Toys made by Physically Disabled People.

EDUCATIONAL TOYS

YAKKUM Craft Products are made by physically disabled people. The Craft workshop provides job opportunities for our disabled producers, enabling them to be economically independent in their communities. Our products are marketed worldwide under the "Rehab Craft" label.

The producers receive vocational training at **YAKKUM** Rehabilitation Centre. This rehabilitation centre is a sister organization to **YAKKUM** Craft and was founded in November, 1982. After successfully completing their training, selected producers are invited to join **YAKKUM** Craft.

Educational toys have become our prime products. During their growing period, children need to play games to stimulate their development such as learning how to recognize colours, shapes and numbers, etc. The high quality products made by the disabled people of **YAKKUM** Craft have recognized educational values, are safe and attractive.

Good Educational Toys can stimulate cognitive, psychological, emotional and social development including:

- Sensory (recognizing colour, texture, feeling, taste, smell and sound)
- Soft Motoric (training the coordination of eyes and hands)
- Understanding Language (recognizing sounds, letters, stories, reading text)
- Mathematics (introduction to numbers, concept of logic)
- Social, Emotional (recognizing emotion, sharing, group playing)
